The Stewart. There are various ways of spelling this name. The Crown of Scotland, and subsequently of the United Kingdom, passed by marriage into the family, whose founder was of Norman origin. Their war cry was “Creag-au-Sgairbh” (Cormorant’s Rock), and their badge “Oak” and “Thistle,” the latter now the Scottish national badge. The Stuart cause perished at the battle of Culloden in 1745, when Prince Charles Edward, at the head of the Highland army, made the last attempt to regain the British throne; but the romance of their varying fortunes is inextinguishable. The old line became extinct, and King Edward VII. is present head by collateral descent.
